Precious feedback/recommendation from valued teachers and parents

The organizer of this outdoor cum residential activity workshop, Mr. Sunil Tatkar is well known to me. He was a student of mine. Even as a student, he exhibited a passion for 'thinking out of the box'. He is very innovative and creative. He has developed an extraordinary and effective tool for instilling values and skills in students, in student friendly manner, evoking their interests & developing their skills by actually experiencing the activities. He is highly educated and his technique is well appreciated. I recommend this method for the all round development of the student. + **Smt. Panicker Sarala Narendran, recipient of The National Teachers Award (Public Recognition of Meritorious Teachers) from Hon. Shri Pranab Mukherjee, the 13th (current) President of India.**

I must admit, when we came to know about your program & were interested, we had apprehensions about sending Chintan with 'strangers', without any references. But apprehension gave way for confidence when we spoke to you & Mrs. Tatkar. Simple telephone conversations, interactions with both of you, the daily tele-chat with Chintan during the program and of course his beaming face on return only justified our confidence. + **Shri. Girish Karnik (works at Siemens, lives in Thane, proud parent of Chintan, Age 12 years – student at Vasant Vihar High School, Thane)**

Registration and service fee (For registrations, parents/guardians to call 9004358965 or 9004487965)

- ✓ Per participant fee works out to just ₹ 2875/-
