

RECREATIONAL PROGRAM FOR TEAMS/GROUPS

2 DAYS, OUTDOOR

A 'Creative Recreational Team Building' Program

TEAM

Who (Potential Participants)

Working professionals in service/business, home makers, youth, teenagers.

Why (Purpose)

The purpose of this program is team building, by providing a creative and recreational time-out for teams and action groups of talented people, ever pursuing stiff goals and timelines at their workplace.

Where (Location)

- Program and stay at Belavali, Badlapur. Includes a one day visit to nearby hill station – Matheran.
- Safe, secure, clean and independent residential bungalow accommodation. 2-4 people in a room with attached clean toilets.
- Meals: Vegetarian
- Travel: First Class Train / Road

How (Process)

Teams spend two days out together out of office, and get to do a varied set of creative recreational activities to recharge the mind and body.

- Solving the Rubik Cube. The Rubik's cube, invented about 40 years ago, is the invention of Ernő Rubik, a Hungarian architect and sculptor. Solving it means overcoming the complexity posed by its quintillions of permutations, equivalent to standard sized cubes, covering the earth's surface, 275 times over! The sense of accomplishment is overwhelming for most people.
- Understanding the three dimensions of EPL for significantly improving inter-personal communications (supported with fun elements of singing, dancing, exercising, breathing and articulating / expressing with conviction) and making a fun presentation on a randomly provided topic.
- Playing dumb charades and demonstrating your own talent.
- A day outdoor trek at Matheran - a nearby hill station plus enjoy horse-riding amidst nature.

Value (Benefits)

This program will serve as a catalyst for building team spirit and camaraderie:

- Solving the Rubik cube is known to develop sharper mental reflexes, improving spatial awareness and recharging/regenerating brain cells.
- Improve communications through effective observation, listening, passionately speaking and expressive body language
- Getting to know your team members in a different (positive) light
- Refreshing mind and body amidst nature, relieving stress

Investment (Program Fee)*

INR 3875/- per person (minimum team of 5 people required)

About Value GO?AL!

GO?AL!

Which way to **GO?** This question is probably the most frequent question that people like you and me face almost every day. The answer lies in you and me clearly "knowing" where to go. Often, this "knowing" is difficult and hence creates hurdles for us in moving forward with joy and confidence to achieve our goals, just like **ALice** in wonderland! In short, we need to truly "know" our "**GO?AL!**"

Your Exciting Success - YES

Your Exciting Success significantly depends on you 'knowing' your goals. One way of you 'knowing' is by being able to **See, Set and Score** ($S \times S \times S = S^3!$) your goals. For you to be able to S^3 , a synergy between your ability (talent/brilliance) and attitude (character/wisdom) is essential. This, in a way is a habit we have to form, acquire and strengthen, until it becomes a way of life, that we can then play the game of life with, every single day. **That is YES^{3!}**

Value GO?AL!

We conduct interactive training workshops and learning programs for inspiring positive synergy between attitude and talent for human resource development of individuals and teams.

Value GO?AL! for Individuals

These programs can benefit individuals (men and women) across varied age groups, students, youth, home makers, as well as professionals, senior executives, managers, business leaders and owners. We conduct these workshops at flexible timings/venues suitable to you and provide personalized attention.

Value GO?AL! for Teams

These programs can benefit teams or group of resources from within or across organizations.

Outdoor Residential and Customised Programs

These programs can benefit individuals as well as teams. We can also work with you to design and deliver customized value training and consulting assignments addressing business metrics such as value sales, individual & team motivation, employee alignment to corporate values and goals, effective communication skills and need based consulting services to identify, address and overcome pain areas (example - attitude!). We can work on both a fixed cost model or a time and material model, as well as a retainer + rolling fee model.

*We strive to keep our program fee affordable, taking inspiration from the attitude of one of India's brightest scientists who struggled to overcome a difficult childhood and achieved his exciting success. He propagated enabling radical social transformation by delivering more (extreme value), from less (ultra low cost means) for more (people to afford and benefit).
